

mTurk Questionable Practices - Study 1

Q36 University of Chicago Elizabeth Necka – Student Researcher John Cacioppo – Principal Investigator

Consent Form

You are being asked to participate in a short survey regarding your typical behavior when completing studies on mTurk. The purpose of this form is to tell you more about the study and help you decide whether or not to participate in it. Please read this form carefully and think of any questions that you may have, such as what you will be asked to do, what direct risks or benefits are involved, and whether anything you say or do will be accessed by anyone else. Feel free to contact the researcher at CacioppoLabGroup@gmail.com if you have any questions.

Description

In this study, you will be asked to report on your typical behavior or others' typical behavior when completing studies on mTurk. During the study, you will fill out questionnaires. Your responses may be associated with prior work you may have completed with this research group (Cacioppo Lab), but this association will in no way affect your payment. This study should take 10-15 minutes to complete. If you complete this study, you will receive \$0.75 compensation. As long as you complete the study and enter the proper completion code, you will be compensated for your time.

Risks and Benefits

-There is no expense to you associated with participating in this study. -The study poses minimal risks for you. However, at any time, if you feel that the study is too difficult or makes you feel uncomfortable, you may end your participation. -We expect that the information that we gather from you and other participants by doing this study will help us better understand how people use mTurk and what types of experiments are feasible to run on mTurk. -By agreeing to participate in this study, you will receive payment, as listed above.

Your Rights

-You have the right to choose not to be in the study without any harm or penalty to yourself or others. -You have the right to stop participating in the study at any time without any harm or penalty to yourself or others. -You have the right to choose not to answer certain questions at any time. -You have the right to email the experimenter or Principal Investigator at any time during the session if you have any questions or concerns. -You have the right to contact us at the phone number below if you have any questions or concerns after you have completed the study.

Confidentiality

If you agree to be in this study, we will keep all of your information private.

1. Your name will not appear on the survey responses you provide.
2. This consent form will be kept separate from your other information.
4. All information about you will be kept in a locked drawer or in a secure password protected computer.
5. The data collected as a result of your participation will be available, on request, to other researchers. However, the data will not contain your name or any other identifying information.
6. Your name or any other identifying information will not be used in our reports or published papers.
7. Your contact information will be destroyed after 3 years. MTurk worker IDs will only be collected for the purposes of distributing compensation and linking responses to any prior work you potentially completed with us and will not be stored with your survey responses.

Please be aware that any work performed on Amazon MTurk can potentially be linked to information about you on your Amazon public profile page, depending on the settings you have for your Amazon profile. However, we will not be accessing any personally identifying information about you that you may have put on your Amazon public profile page. We will use the information gathered from your participation in reports and published papers. This information may also be presented at conferences. For answers to any questions you may have about this study, you may contact: Social
